

Dear FCC,

It Has come to my attention that Consumers Banker Association is trying to make changes to the No Call list in Indiana as an individual on that list I wish to ask you to refrain from weakening the law currently on the books in Indiana. I wish to continue to enjoy my time with my family in the evening with out interruptions. This no call list has greatly improved the peace and sanctity of my home. So please reject the challenge set forth by Consumer Bankers Association and keep Indiana Telephone lines safe.

Sincerely,

Johnathan Early
